DIARY NOTES

DD/S

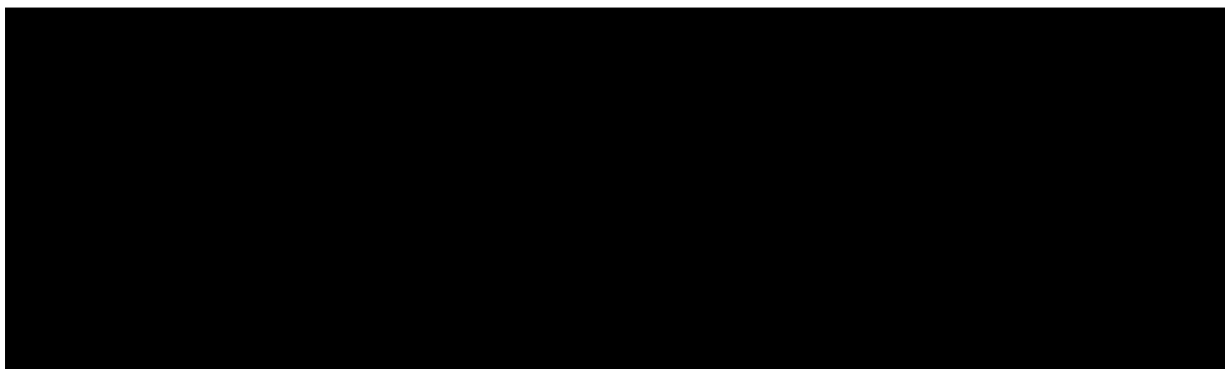

8 February 1966

25X1A

2. OTR's Classrooms (1A-13 and 1A-07). On a recent visit to these rooms I noticed that they were in shabby condition. I talked to John Richardson who agreed. I asked [REDACTED] to come up with a proposed plan to refurnish these two rooms. He advised that he has \$50,000 in his budget for this purpose and shortly he will have a proposal for their redecoration.

3. Alcoholism Briefing by Dr. Tietjen. Dr. Tietjen briefed the Executive Committee on the problem of alcoholism together with his suggested program as to how Agency attention might be focused on this increasing issue. An hour's discussion followed with many viewpoints being expressed. The Committee members wanted the Office of Medical Services to take a more active role in the handling of the problem. I suggested to Colonel White that we come up with a proposed program within the Agency which would link the supervisor with OMS in its program to assist identifying cases of alcoholism. The program would include some form of briefing of supervisors on the nature of alcoholism. I will meet with Dr. Tietjen to work out this program.

Diary Notes - 8 February 1966 (con'd)

25X1A basis of this program we can obtain a commitment of funds for the first steps in the
25X1A program and lay the basis for projecting for FY's 68 and 69. Additionally this program
must be coordinated with [REDACTED] and from a policy basis must be discussed with

25X1A [REDACTED] With these things in mind we can then proceed to cover in our
consideration every post in Europe and lay out a long-range program which will serve
the Agency's needs.

25X1A 5. Meeting with [REDACTED]

See my Memorandum for the Record.
